

# 2018 Yateley 10k Runners Notes

May 2018

## Welcome from the Race Director

Welcome to the 2018 Yateley Road Race Series.

The Race starts promptly at 7:30pm from the school field, so you will need to arrive in plenty of time to pick up your race pack. Race HQ and information area will be open from 6pm.

Please take notice of the safety instructions in this document.

Please be aware that this is a strict NO HEADPHONE RACE. If you do wear headphones it will result in disqualification.

If you have exchanged/ swapped your number with someone then you need to ensure you have completed the number exchange before 8pm the night before the race. This ensures that the results are registered in your name and more importantly if you are taken ill we know who you are and who to contact.

Number exchange details can be found on the website and Facebook.

The course remains unchanged from recent years.

For your Safety please take heed of the marshals around the course, keep to the left at all times unless told otherwise, and please ensure you run in single file along the Reading Road.

The Yateley 2K Fun Run will take place on the field at 7:40 and you can enter for this race on the night - young and old are all welcome to join in!

Here's hoping you have an enjoyable run and achieve the times and experience you are looking for.

Yours in Sport

Jenny Robinson

Race Director

Please note that any changes or additions to these Runners' Notes will be announced on our web site at [www.yateley10kseries.info](http://www.yateley10kseries.info).

It will also be possible to download a copy of Runners' Notes and obtain additional or updated information prior to the event.

## Safety

### First Aid/Medical Care

To assist Medical Staff Please specify any medical conditions on the reverse of your race number writing in a ball-point pen along with any special medical treatment. Medical care is available in the School grounds and a Red Cross ambulance is available if required.

If you are unwell or injured on the day, please do not run - *there will be other races and there is only one you.*

Should you experience any problems during the event; please contact any marshal or official who will be able to alert the medical team. If you drop out for any reason, please hand your number and chip to any marshal and tell them where you are going.

### Course Safety

The risk assessment and Road closure order can be found on the website and will also be available in the hall on the evening of the three events. The road closures for Cricket Hill Lane will be in force for a short time as runners pass through at the start of the race.

A Safety Car will precede the lead runners, and marshals will be strategically placed to guide and assist you around the course. As you will be running with and against traffic you must use the left hand side of the road unless instructed by a marshal or official. Runners cannot be followed by others on cycles, motorbikes or cars. Unfortunately the course is unsuitable for wheelchairs.

Please note that failure to obey the instructions given by police and race marshals could place you in danger and could lead to your disqualification.

### Dogs

Dogs cannot accompany their owners running the course for safety reasons.

### Headphones

We have a license from UK athletics. One of the conditions of this license is that runners must not compete with headphones on. If we fail to enforce this rule then our license will be removed and we will no longer be able to run the race. We will have spotters on the course looking out for headphones and disqualifying any runners who do not follow the rules.

The results will reflect the gun time the difference is as follows:

- Gun time - the time from the starting 'gun' to crossing the finishing line. Your race time.
- Chip time - the time from crossing the starting line to crossing the finishing line. Your actual time.

Prizes will be allocated according to 'gun' times as per IAAF Rule 165 (see below)

Rule 165.24e: The official time will be the time elapsed between the start gun and the athlete reaching the finish line (Gun Time). However, if an athlete crosses the start line after the start gun, his time elapsed between the start and finish line (Chip Time) can be made known to the athlete but will not be considered as official time. (Race prizes will be awarded using official time only)
